God is Good!

So many things have happened to us in this past few months.

Last month July, we had the privilege to teach the Inductive Method of Bible Study in Cebu DTS. We thank God in allowing us to witness how the students learned and understood God's word, and how God worked in them individually.

In spite of the delay of our schedule because of a typhoon during our flight to Cebu, God still got us there just a day later. Still we witnessed how God worked in the staff and students. Andrew was enjoying it to and even wanted to share to the students and the staff like mom and dad. We were so blessed from their wonderful hospitality

and great friendship with us... Thank you Cebu June DTS team.

We are back to our wonderful place in Patpat Malaybalay and we missed the nice cool weather during day time specially.

We have 7 Girls right now in the center and it's quite a challenge for us because I am the only lady in the house aside from the Girls, Andy and our two Guys volunteer staff.

So for safety of our Girls I have to sleep with them while we don't have lady staff but I

think that's not so bad for us to have that kind of setting. The difficult situation we are facing right now is having a car that we don't know could anytime break down while driving for it always over heats and we feel so tired of this because it hinders our schedules. Plus our road is going thru a pineapple field. So that means off-road challenge.

Pick-up, 6 valve, 12 valve SUZUKI

The car looks similar like this just 4wd and off-road tires.

Challenges...

Lately the car was stuck in the midst of the pineapple field we used all the help we could get to get it out of there again. It was discouraging for us specially, for we had appointments in the school and go marketing for our food and other

stuff. Thanks to God for the strength in spite of the situation we had. For 2 weeks we did not have water and we thank God that He provided rain for us, because of rain we were able to cook and do the cleaning and have a shower and able to wash our laundries.

Therefore Friends,
I would like to challenge you to take part of our step of faith in having a Multi-cab off road car. Any amount you give it's a great blessing for us.

YWAM -

Nehemiah House

Volume 1, Issue 2

August 2008

Prayer Points:

- 4.000 € for our personal Multi-cab off road car with 4wD.
- pray for a lady staff who has a heart in this ministry.
- protection from any sicknesses.
- more strength for us as a family
