
Abler's Updates

YWAM-Nehemiah, Malaybalay

Doing great!

After all the struggles and problems we encountered in the last 3 months, finally God brought us a brake trough. Our computer finally is fixed, the car is kind of okay and doing better in bringing us to the city without breaking down.

For more than a month we were not able to drive down to Cagayan, we are happy that this weekend we were able to drive down by bus and finally able to check our piles of e-mails and of course we also had to reply all the piles of emails but it's okay it's our joy reading e-mails specially some good news after all the frustrating experience we had.

Andrew, always present in school now and soon he will be finished and be on the next

level. He will be 6 years old by April 27 and we are planning to have a simple party for him with his friends.

We have 11 Girls now, 6 are going to school and 5 are at home. We trained them more in farming work and house work like cooking. We don't

Us the girls and the DTS Davao Team that was with us for 3 weeks

have oven for baking this time for the oven which we used exploded while Andy was trying to light it so we decided to sell it in a junk shop because it was getting to dangerous. So we are praying that we can have another big one to bake bread.

Besides...

God blessed us with two guys volunteer JB and Carlo, soon we will have a new lady staff. We thank God that in spite of what had happened He protected us from lies and work of the enemy.

We just had the Team from

Davao DTS, we are so blessed by them. They helped us with all our work on the farm, they are a great blessing. Davao DTS thanks for your servant heart and your time with us, you are a great team.

Soon God will bless us too with another team from Singapore and looking forward to that.

Aside from our boys volunteer, we have two pets Abner (dog) and Scooter (cat).

Volume 1, Issue 2
March - April 2008
